CAPYBARA: BIOLOGY, USE AND CONSERVATION OF AN EXCEPTIONAL NEOTROPICAL SPECIES

Springer. Hardcover. Condition: New. 419 pages. Dimensions: 9.1in. x 6.0in. x 1.1in. The capybara is the neotropical mammal with the highest potential for production and domestication. Amongst the favorable characteristics for domestication we can list its high prolificacy, rapid growth rate, a herbivorous diet, social behavior and relative tameness. The genus (with only two species) is found from the Panama Canal to the north of Argentina on the east of the Andes. Chile is the only country in South America where...

Reviews

This publication will never be effortless to begin on studying but extremely entertaining to learn. It is probably the most incredible publication I have ever read. I realized this ebook from my dad and he suggested this publication to learn.

-- **Austin O'Connell**

A top quality ebook and the typeface used was interesting to read through. It is really intriguing through reading through period. You won't feel monotony at anytime of the time (that's what catalogues are for relating to when you ask me).
