It is a clinical study of how the thing actually occurs among quite ordinary people, innocent of all unconventional views concerning it. The enormous majority of cases in real life are those of people in that position. Those who deliberately and conscientiously profess what are oddly called advanced views by those others who believe them to be retrograde, are often, and indeed mostly, the last people in the world to engage in unconventional adventures of any kind, not only because they have neither time nor disposition for them, but because the friction set up between the individual and the community by the expression of unusual views of any sort is quite enough hindrance to the heretic without being complicated by personal scandals.
