

Valuation of a Medical Practice (Hardback)

Filesize: 9.39 MB

Reviews

A top quality publication as well as the typeface used was intriguing to learn. Yes, it is play, still an amazing and interesting literature. I discovered this publication from my i and dad suggested this book to learn.

John Wiley and Sons Ltd, United States, 1999. Hardback. Book Condition: New. 237 x 161 mm. Language: English . Brand New Book. What is a medical practice worth? The answer depends, in part, on whom you ask. Purchasers would say value is based on what they plan to bring to the table; sellers assume it's simply a matter of formula applied uniformly across the board. In actuality, both are correct--to a degree. While there are basic guidelines used to ascertain values, valuation must be determined on a case-by-case basis, as each has a unique set of circumstances that ultimately affects final outcome. Covering the specific issues that impact valuation, Valuation of a Medical Practice takes you through the entire process, highlighting pitfalls and mistakes that are commonly made and that should be avoided. Written by Reed Tinsley, Rhonda Sides, and Gregory D. Anderson, leading experts in the field, this comprehensive resource clears up the ambiguous question of what exactly constitutes the value of a medical practice. As the authors stress, there are two main points to keep in mind: The strength of the practice's income stream and what it produces for the owner(s) is what creates true value. The key to a successful valuation is deciding whether or not the practice's future income stream will mirror its present income stream. Along with case examples, sample valuation letters, and checklists for gathering data, as well as an exhaustive appendix and glossary of terms, Valuation of a Medical Practice has complete details on: Regulatory issues--Medicare fraud and abuse, private benefit/private inurement, the Stark Law. Special issues--gross revenues, referral patterns, payer mix, practice efficiencies and transition, productivity. Getting started--engagement preplanning and planning, requesting pertinent data. On-site inspection and owner interview--fixed assets, personnel, accounting system, supply inventory, marketing, physician and management...
