

Community-Based Broadband Solution: The Benefits of Competition and Choice for Community Development and Highspeed Internet Access

Filesize: 2.23 MB

Reviews

Completely among the best pdf I actually have possibly read through. It is probably the most awesome pdf we have read. You wont really feel monotony at whenever you want of your time (that's what catalogs are for about in the event you ask me).

Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Affordable, reliable access to high speed broadband is critical to U.S. economic growth and competitiveness. Upgrading to higher-speed broadband lets consumers use the Internet in new ways, increases the productivity of American individuals and businesses, and drives innovation throughout the digital ecosystem. As this report describes, while the private sector has made investments to dramatically expand broadband access in the U.S., challenges still remain. Many markets remain unserved or underserved. Others do not benefit from the kind of competition that drives down costs and improves quality. To help fill the void, hundreds of towns and cities around the country have developed their own locally-owned networks. This report describes the benefits of higher-speed broadband access, the current challenges facing the market, and the benefits of competition - including competition from community broadband networks. Since President Obama took office, the United States has significantly expanded its broadband network and increased access. Investments from the federal government have helped deploy or upgrade more than 78,000 miles of network infrastructure since 2009, and more than 45 million Americans have adopted broadband Internet during the President's time in office. Today, more than 90 percent of Americans can access the Internet on a wired line and 98 by either wired or wireless connection. Competitive markets have helped drive expansion in telecommunications services as strong infrastructure investments and falling prices have opened up a wide range of new communications products and services. Where there is strong competition in broadband markets today, it drives similar improvements. Unfortunately, competition does not extend into every market and its benefits are not evenly distributed. While the U.S. has an extensive network backbone of middle-mile connections (long, intra- or...
