Over the years Ive acquired several books on hiking, biking, kayaking, etc. . . . Many of them are focused on the Northeast, or New England or Southern New England. They are good books, but precious few are dedicated to the Pioneer Valley area exclusively. Its trails, hills, wildlife. The nooks and crannies and beautiful places that only people who live here could know . . . I finally came across the book that Id been imagining, lo these many years . . . To quote the cover: Birds, wildflowers, ice age, trees, dinosaurs, bears, weather, beavers, turtles, butterflies, geology, fish, mountains, deer, frogs, ecosystems. All of it, and more. And easy to read and understand, for us slower kids in the class. Easy concise local information. With brilliant photos, drawings, and graphics . . . If you enjoy the valley, youll enjoy this book. Tony Mateus, thepioneervalley.blogspot.com This book, filled with color photos on just about every page, is both enjoyable...
