A few of the reasons for these emphasis are: Globalization, fair-play and security. Ethics is not always defined the same in all cultures. For instance, a business practice that can easily be referred to and accepted as unethical in one particular culture, would not necessarily be accepted as unethical in another culture. Therefore, at what point in time can we collectively agree, that a particular business practice is unethical, and would it be possible to deploy uniformed (same) tools to combat unethical business practices across cultures This report discusses some implications and bottlenecks of ethical practices and concludes with some practical recommendations. 16 pp. Englisch.
